POLICY:    CPR CERTIFICATION

POLICY:
It is the Policy of the Nursing Program at the University of Pittsburgh at Titusville to require prospective students seeking admission to the Nursing Program to submit documentation of current CPR certification – Basic Life Support for the Health Care Provider – including infant and child.

- This certification must be from the American Heart Association.
- This certification must be maintained throughout the extent of the program.
- Current is defined as a two year period beginning with the date certification was received.
