Intramural Flag Football

The flag football champion for 2014 is Team Chopnation, captained by Eddy Camara. The semi-final game was an exciting 58 to 56 thriller between Chopnation and Team Leonard. Team Leonard took a lead late in the game only to have Chopnation answer with a late touchdown to secure the victory. The speed of Camara, Devaughn Jones, Donald Payne and Allena Pugliano were major factors in the game. The passing and running of Carnell Hawkins were too much for Leonard’s squad to overcome.

The championship game pitted Team Celebrity All-Stars against the powerful Camara bunch. The All-Stars had no answer for the scoring punch of Chopnation. Captain Demetrius Laster’s squad never quit, but there was no weakness in the game of their opponents, who had their offense and defense at the top of their game. The weather was beautiful and the competitors were amazing. Congratulations to all who participated!
Intramural Golf Championships

The 2014 Pitt-Titusville golf champion is Chris Fiely. Chris defeated Mike Willis in a hard fought semi-final match played at the beautiful Mount Hope golf course. The match went right down to the very last hole tied, when Mike’s approach shot to the green went out of bounds. Chris calmly hit the putting surface with his shot and putted out for the victory.

In the other semi-final match, Brandon George defeated Zach Starkey. Zach hit some excellent shots, but the accurate driving of Brandon was too much to overcome.

The championship match between Chris and Brandon was played at the cool and windy Cross Creek course. A rain the previous night made for difficult playing conditions, but Chris’s approach shots and accurate putting proved too much for Brandon’s game that day.

Congratulations to our first ever intramural golf champion, Chris Fiely.

Students, faculty and staff wore pink on October 24th to support the Relay for Life.
ULS’ Online Library Tutorials

Have no idea how to get a research project started? Not sure what to cite and what not to cite when writing a research paper? Unsure of how to search an article database? Typing in search terms but not finding any articles on your topic? Do not know what your professor means when saying to use only scholarly information in your research paper? What’s a PittCat?

Maybe the University Library System’s online library tutorials can clear things up for you. Currently there are 5 tutorials available to faculty, students and staff. Each tutorial breaks large portions of learning down into smaller, more easily understood chunks. Each tutorial introduces and teaches, in less than 5 minutes, an information seeking concept or skill. Interactive quizzes are built into each tutorial to allow the viewer to apply and reinforce each new skill.

The following tutorials are currently available:

- **Avoiding Plagiarism**
  This tutorial presents the concept of plagiarism and ways to avoid inadvertent plagiarism.

- **Developing a Research Topic**
  This tutorial explains how to get started with a research paper.

- **Keyword Searching**
  This tutorial explains the basics of keyword searching and how to select appropriate keywords for searching.

- **Scholarly Information**
  This tutorial provides an introduction to identifying scholarly or peer reviewed literature.

- **Using Databases**
  This tutorial discusses the value of article databases and basic database searching techniques.

Tutorials can be accessed by completing the following steps:

► Go to the library’s website at [http://www.library.pitt.edu/video-how-tos](http://www.library.pitt.edu/video-how-tos)

► Click on the **ONLINE TUTORIALS** tab on the left of the screen.
